The acute is located above the first part of the ligature, while the macron is located above the second part; they are not po-sitioned on top of each other, like in the other glyphs in this subrange. This is reflected in the character entity, which is &aacutevmacrlig; and not &aeligmacracute;. | 2023-04-30 12:07:45 | https://mufi.info/q.php?p=mufi/chars/unichar/61693 |
